introduction of modern reinforced-soil gravity walls, cantilevered walls were the most common type of taller retaining wall.

Cantilevered walls are made from a relatively thin stem of steel-reinforced, cast-in-place concrete or mortared masonry (often in the shape of an inverted T). These walls cantilever loads (like a beam ...

Introduction. The modern definition of a robot can be an electro-mechanical device which follows a set of instructions to carry out certain jobs, but literally robot means a 'slave'. Robots find wide application in industries and thus are called there as industrial robots and also in sci-fi movies as humanoids. This and
