Schematics Parts

The Ford 1.6 TDCI diesel engine has excellent reliability, more than the 1.8 version. Cars with the DLD-416 DV6 engine goes more than 100,000 miles without any problems. One serious issue with the 1.6 TDCI is turbo failure. Oil supply troubles due to sludge build-up in the oil feed pipes can cause a blown Turbo.

Focus 1 6 Tdci

Engine

completely unrelated to the 1.4/1.6 units, and is a development of Ford's 1.8 8v Endura-D engine that saw service through the 1980s and 1990s.

However, Ford considers it part of the DLD family, as evidenced by the official "DLD" name.

Ford Duratorq engine - Wikipedia

There were new engines, too, including

Focus 1 6 Tdci

Engine

a remarkable 1.0-litre Ecoboost petrol and a 1.5-litre TDCi diesel.

Neither can offer the fuel economy claimed by Ford, but both offer an excellent blend of performance and economy. It's even better to drive than the outgoing model, feeling sharper, yet riding with more composure. Anyone who bought a new Ford Focus in 2013 would be forgiven for feeling ...
