Created by real editors, the category list is frequently updated.

## Note Taking Guide Earth Science

Doctor Who is a British science fiction television programme broadcast by BBC One since 1963. The programme depicts the adventures of a Time Lord called "the Doctor", an extraterrestrial being who appears to be human. The Doctor explores the universe in a time-travelling space ship called the TARDIS. Its exterior appears as a blue British police box, which was a common sight in Britain in 1963 ...

Earth is the third planet from the Sun and the only astronomical object known to harbor life. About 29.2% of Earth's surface is land consisting of continents and islands. The remaining 70.8% is covered with water, mostly by oceans, seas, gulfs, and other salt-water bodies, but also by lakes, rivers, and other fresh water, which together constitute the hydrosphere.

Note that deterrence is an art, not a science. This is because deterrence requires fear. How and whether one can produce fear depends not just on one's own capabilities and resolve, but also on the adversary's values and emotional state (hence, mind). Influencing others' minds is an art, in part because determining what others value and feel is ...
