The Venn Diagram only has  $B'$  shaded, so which part is  $A \cap B'$ ? It would help if you would shade  $A$  in one direction and  $B'$  in another direction and clearly show what  $A \cap B'$  is. The equality from the Venn diagram looks wrong. There may be more mistakes. You should look carefully at each step more carefully before proceeding.

two plates, A and B, which have an electric field  $E$  between them. The electric force  $F$  exerted by the field on the positive charge is  $F = qE$ . To move the charge from plate A to plate B, an equal and opposite force ( $F' = -qE$ ) must be applied. The electric potential—that is, the work  $W$  done in moving the positive charge through a
