CPAP Supplies | Tubing, Filters, Replacement Parts & More ...

A BiPAP machine (also referred to as BiLevel or VPAP) delivers two separate and distinct pressures. A higher pressure is need for inhalation, while a lower pressure is needed for exhalation. The machine alternates between the two pressures which are set per the doctor's order or prescription. A prescription for a CPAP machine may not be used to purchase a BiPAP machine.

CPAP Therapy Frequently Asked Questions | CPAP.com

A CPAP machine will help you sleep better by providing continuous pressure through your airways, and it may be able to save your life as well. It is extremely important that you find a comfortable, reliable CPAP device that can keep up with your lifestyle. Some of the CPAP machines for sale include user-friendly, portable devices that can be taken on trips and only take up a small amount
