### Subaru Problems And Solutions

Subaru head gasket problems are in every model in 2007 except for the Baja. In 2010, the problems affected the Subaru Forester and Impreza. By 2011, the Subaru Impreza was the only model that experienced head gasket problems. The Subaru Outback was re-designed in 2012, and the new motor has fixed all of the leaking issues.

Problems, solutions and a caution. The story of the push or pull type clutch gearboxes begins in 1991 and is still being written, with some models still running the 5-speed manual gearbox. The earlier turbo four-bolt pull-type clutch models (series 1, 91-98) had many problems. While these gearboxes worked well, with a positive, quick action and were enjoyable to operate, the power generated by ...
