The Holden Commodore (VE) is an executive car that was produced by the Australian manufacturer Holden from 2006 to 2013. It was the first iteration of the fourth generation of this Australian-made model. Its range included the luxury variants, Holden Berlina (VE) and Holden Calais (VE); utility models were included as the Holden Ute (VE). As opposed to the VZ and all models previous which used ...

By buying a VE Commodore, new in its day or second hand now, you are willingly putting your hand up to be a guinea-pig to test the new platform. The single greatest issue is the timing chain fault that the V6 engine is very common for. Unfortunately the Holden V6 is known for stretched timing chains which is a very costly fix.

The ID1700x will deliver flawless stoichiometric idle and cruise mixtures on E85, but like the ID2000, should not be expected to do so on gasoline. If you need flawless drivability on gasoline, the ID1300x will provide this, and is capable of approximately 150hp per injector on E85. Basic Specifications. Nominal Flow Rate - 1725cc/min @ 3.0 Bar (43.5 psi) Using Iso-Octane at 52 Degrees C ...
